# Provider Finder Tool

UnityPoint Health

Viewing Provider Information for Registration or Billing Purposes

The Provider Finder Tool can be used to find information for a provider including location and NPI.

1. Epic user security can cause the path to Provider Finder to vary.

   - The most common path is **Epic > Tools > Provider Finder.**
   - Provider Finder may also be saved as a favorite on the Hyperspace Toolbar.

2. The Provider Finder window will open.
3. In the Provider field, enter the provider's name and click the magnifying glass.
4. Select the appropriate provider from the list.
5. Click Search.
6. You can also search using the Department and Location sections.
7. Click Search at the bottom left of the window.

8. The **Provider Summary** section will display information including NPI, contact information, and provider type. You may need to scroll down on the right side to see the additional information.
